EDUCATION

VIVA College of Arts, Commerce and Science, Virar - <i>Affiliated to Mumbai University</i>	2023 - 2026
Bachelor of Science, Data Science	CGPA: 8.87
- <i>Relevant Coursework:</i> Excel, SQL, Power BI, Tableau, Python, Descriptive Statistics.	
Holy Family Convent High School - Vasai, Maharashtra	2021 - 2023
12 th HSC Board	Score: 74%

SKILLS

Technical Skills: Microsoft Excel, Power Query, Power BI, Tableau, SQL(PostgreSQL), Python, Pandas, NumPy, Matplotlib, Data Cleaning, Data Analysis, Data Visualization, Dashboard Development.

Soft Skills: Analytical Thinking, Problem Solving, Communication, Attention to Detail, Critical Thinking, Time Management.

PROJECTS

1. Sales Performance Dashboard using Excel - [Link](#)

- Cleaned, transformed, and validated raw sales data using Power Query to ensure data accuracy, consistency, and reliability for business reporting and analysis.
- Created Pivot Tables, Charts, and Slicers to analyze sales trends, customer segments, product performance, and regional growth patterns across multiple categories.
- Developed an interactive Excel dashboard that provided actionable insights into key sales metrics, top-performing products, and revenue-driving regions, supporting data-driven decision-making.

2. Insta Mart Sales Analytics Dashboard using Power BI - [Link](#)

- Performed end-to-end data cleaning, transformation, and data modeling using Power Query and Power BI to prepare structured datasets for analysis.
- Created KPIs, DAX measures, and interactive visualizations to evaluate sales performance, customer purchasing behavior, outlet performance, and product trends.
- Designed a dynamic dashboard with filters and drill-down capabilities that enabled stakeholders to identify business opportunities and make informed decisions.

3. Online Bookstore Sales Analysis using SQL - [Link](#)

- Designed and developed a relational database for an Online Bookstore using PostgreSQL, including Books, Customers, and Orders tables with appropriate relationships.
- Performed data analysis using SQL queries involving JOINS, Aggregate Functions, GROUP BY, HAVING, ORDER BY, and Filtering techniques to extract meaningful business insights.
- Analyzed customer purchasing behavior, inventory levels, sales performance, and genre-wise book trends through structured database queries.

4. Customer Sales Exploratory Data Analysis using Python - [Link](#)

- Performed data cleaning, preprocessing, and transformation using Python, Pandas, and NumPy to prepare datasets for accurate analysis and visualization.
- Conducted Exploratory Data Analysis (EDA) using Python libraries to identify sales trends, customer demographics, purchasing patterns, and product performance across different categories.

CERTIFICATIONS

- Data Analytics Course – Skill Course
- Advanced Microsoft Excel – Skill Course
- Power BI Mastery – Skill Course
- SQL Mastery – Skill Course
- Python Mastery – Skill Course
- Power Query Mastery – Skill Course
- Tableau Mastery – Skill Course
- Statistics Mastery – Skill Course

ACHIEVEMENTS

- Secured 2nd Place in Chess Competition organized by Vasai Virar City Municipal Corporation.
- Secured 2nd Place in College Arts Competition.
- Actively participated in college-level technical and extracurricular activities.
